## HALF YEAR MEETING 2019

### 2° Italian Regions Festival

### Bergamo 22<sup>nd</sup>-24<sup>th</sup> November

May the friendship chains never rust !

# "Welcome!"

Dear national and international guests, let's meet in **Bergamo**, wonder for its history, culture, music and landscape, with the perched and medieval heart of the **Upper Town** surrounded by imposing Venetian Walls which have now become UNESCO World Heritage. A place to discover on foot, among historic villages, towers and churches, funiculars and stairways that climb the greenery of the Colli park that surrounds it and let yourself be captivated by unexpected panoramic glimpses. Bergamo is the city of Gaetano Donizetti, one of the five great opera composers in the world, of the tenor Giovan Battista Rubini and Gianandrea Gavazzeni. Furthermore, ranging from music to art, we can admire the works of Botticelli, Mantegna, Bellini and Raffaello in the halls of the **Accademia Carrara**, a wonderful art gallery which, today in Europe, gathers important works of the Italian Renaissance: masterpieces to be discovered with works by Moroni, a genial portrait local painter of the sixteenth century, now present in the collections of the major world museums, by Lorenzo Lotto, who left precious works of art here, altarpieces, designs of inlays, mysterious inlays in rare woods. The twentieth century and the twenty-first see the **Lower Town** as protagonist: surrounded by historic villages, the city center has

become the heart of shopping and entertainment with its pedestrian area, where you can enjoy a coffee for a break or, in the evening, drink an aperitif before of dinner. The local cuisine, **simple but tasty**, offers, in addition to **casoncello pasta**, prince of our first courses, cold cuts, **yellow polenta** with endless arrangements, combined with our local red wines. Enjoy your meal!

### VILLA MONTICELLI

UPDATED

#### Villa Monticelli

Going east from Bergamo on the road to the Iseo lake, in the village of Montello we find the charm of an ancient

tradition combined with the quality of a modern accommodation. Villa Monticelli is a reference in many ways unique in Lombardy in enhancing every meeting opportunity. The structure in fact arises from an intelligent intervention of architectural recovery, which now makes it possible to enter a cultural and image dimension, as well as convivial, of certain interest. The Villa is surrounded by a 30 thousand square meters planted park. The restaurant is managed by internationally appreciated chef Chicco Coria. We are pleased to host in this place the **2° Italian Regions Festival**: we ask all the Clubs to bring to Bergamo, through their products and their typical recipes, traditions and flavors to be shared. The Cooking Lab has a kitchen equipped with twelve workstations and everything you need to work safely. For a better organization of the event we will ask you to indicate the relative needs, in advance, completing the appropriate registration forms.

#### La Ciotola Restaurant

La Ciotola restaurant has been known in Bergamo for the quality of its dishes since 1953: tasty recipes from traditional

cuisine are made in the kitchen. The premises of Viale Papa Giovanni XXIII, always managed with mastery by the Testa family, have remained for over sixty years a tasty stage for gourmets.

#### Giopi & Margi Restaurant

The Giopi & Margi restaurant has handed down the most traditional Bergamo cuisine since 1983. It is located

in the old Borgo Palazzo side, in a building from the 1700s with a vaulted structure and exposed bricks, a typical feature of old-fashioned inns. Pasta-based dishes and polenta are the main ingredients alongside tasty cold cuts and meat dishes.
